Onderwerp: Longer closure of Arnhem quays

Geachte heer, mevrouw,

Work on flood safety along the Boterdijk and the Rijnkade in Arnhem started in October 2023. Unfortunately, this work has not yet been completed. In addition, the municipality of Arnhem continues to accommodate six reception ships for COA refugees and two for Ukrainian displaced persons at the Nieuwe Kade.

#### **Quay closed to shipping until the end of 2025**

To continue to guarantee the safety of the residents and staff of the shelter ships and to ensure that the work on the Rijnkade runs smoothly, the current measures will remain in force until the end of 2025. For you, this means that the quays between KMR 882.190 and KMR 883.970 will remain closed and not available for mooring ships.

#### **Quay open for mooring**

According to the current planning for the renovation of the Rijnkade, there will be room again from the 2026 tourist season. After the renovation of the Rijnkade, we welcome cruise shipping again. The quay with all its facilities will then be completely renovated, with shore power, a beautiful new design and plenty of space for cruise shipping.

#### **Contact**

If you have operational questions, you can contact the harbor master during office hours via the email address [haven@arnhem.nl](mailto:haven@arnhem.nl) or via telephone number +31 26 37 75 510. For questions about the reinforcement of the dike on the Rijnkade in Arnhem, the customer service of the municipality of Arnhem is available for you via 0800-1809.

Thank you very much for your cooperation and understanding.

Yours sincerely,

On behalf of the mayor and aldermen of Arnhem,

K. Vos

Coördinator havendienst
